

## PATENTS - DESIGNS

### ELENA CERBARO

*cerbaro@studiotorta.it*

 Turin

She joined the firm in 1990 after spending ten years working in the IP field, and became a partner in 1999. She has experience in the field of micro- and nano-electronic inventions, manufacturing technologies of semiconductor devices, analog and digital circuits, semiconductor memories, processor controlled systems, telecommunications, electromechanical devices and MEMS and software inventions.

She has considerable experience in proceedings before the Italian and European Patent Office, in the protection of industrial design and the protection of software, integrated circuits, copyright and patent protection procedures. She is in charge of business development of Studio Torta's Europe desk.

She is a member of AICIPI, FICPI and UNION. She was appointed as a member of the SACEPO Working Party on e-Patent-Process for 2021-2023.
