

PATENTS

**SIMONA
ZANZOLA**

zanzola@studiotorta.it

 Turin

She joined the firm in 2023. She is specialized in pharmaceutical chemistry, organic chemistry, biotechnology and medical devices.

She has recognized experience in bibliographic and patent searches (prior art, patentability, freedom to enforce, validity, patent landscape, competitive monitoring, retrieval of life status information, patent family, patent expiration and extension). After 11 years as a researcher and Patent Information Specialist in the laboratories of a multinational pharmaceutical company, and after 15 years as a Patent Information Professional in another intellectual property firm, she joined Studio Torta where she works on document searches.

She is co-inventor in nine patents concerning new Active Pharmaceutical Ingredients and co-author of scientific articles published in international journals. She is a lecturer in postgraduate courses on document searches in several Italian universities. Since 2019, she is internationally qualified as a Patent Information Professional (QPIP). She is a member of AIDB.
